| 4 | Tender's obligations |

| | |
|-----|---|
| 4.1 | <p>The following tenderers who are registered with the CIDB, or are capable of being so registered prior to the evaluation of submissions, are eligible to have their tenders evaluated:</p> <p>a) contractors who have a contractor grading designation equal to or higher than a contractor grading designation determined in accordance with the sum tendered, or a value determined in accordance with Regulation 25 (1B) of 25(7A) of the Construction Industry Development Regulations, for a CIDB 2 EB only in the EB class of construction work; and</p> <p>b) contractors registered as potentially emerging enterprises with the CIDB who are registered in one contractor grading designation CIDB 2 EB in terms of a) above and who satisfy the following criteria:</p> <p>Potential to develop and qualify to be registered in that higher grade as determined in accordance with the provisions of the CIDB Specification for Social and Economic Deliverables in Construction Works Contracts; and whom the employer agrees that they will provide the financial, management or other support that is considered appropriate to enable the contractor to successfully execute that contract.</p> <p>JV NOT APPLICABLE</p> |
| 4.2 | <p>The employer will compensate the tender as follows as per the conditions of the JBCC 2018 Edition 6.2 May 2018.</p> <p>The employer will not compensate the tenderer for any costs incurred in attending interviews or making any submissions in the office of the employer.</p> |
| 4.3 | <p>It is the responsibility of the tenderer to check the tender documents on receipt for completeness and notify the employer of any discrepancy or omission.</p> |
| 4.4 | <p>Confidentiality and copyright of documents</p> <p>Treat as confidential all matters arising in connection with the tender. Use and copy the documents issued by the employer only for the purpose of preparing and submitting a tender offer in response to the invitation.</p> |
| 4.5 | <p>Obtain, as necessary for submitting a tender offer, copies of the latest versions of standards, specifications, conditions of contract and other publications, which are incorporated into the tender documents by reference.</p> |
| 4.6 | <p>Acknowledge receipt of addenda to the tender documents, which the employer may issue, and, if necessary, apply for an extension to the closing time stated in the tender data, in order to take the addenda into account.</p> |
| 4.7 | <p>The arrangements for a compulsory clarification meeting are as stated in the Tender Notice and Invitation to Tender.</p> <p>Tenderers must sign the attendance list in the name of the tendering entity. Addenda will be issued to and tenders will be received only from those tendering entities appearing on the attendance list.</p> <p>Tender documents will not be made available at the clarification meeting</p> |
| 4.8 | <p>Seek clarification</p> <p><i>Request clarification of the tender documents, if necessary, by notifying the employer at least 1 (One) working day before the closing time stated in the tender data.</i></p> |
| 4.9 | <p>Tenderers are required to state the rates and currencies in Rands.</p> <p>Include in the rates, prices, and the tendered total of the prices (if any), all duties, taxes which the law requires to be paid [except value added tax (VAT)], and other levies payable by the successful tenderer, that are applicable 14 days before the closing time stated in the tender data. Show the VAT payable by the employer separately as an addition to the</p> |

| | |
|--------|--|
| | tendered total of the prices. Provide rates and prices that are fixed for the duration of the contract and not subject to adjustment except as provided for in the conditions of contract identified in the contract data. State the rates and prices in monetary value of the contract unless otherwise instructed in the tender data. |
| 4.10 | Do not make any alterations or additions to the tender documents, except to comply with instructions issued by the employer or to correct errors made by the tenderer and ensure that all signatories to the tender offer initial all such alterations. Do not make erasures using masking fluid. |
| 4.11 | Main tender offers are not required to be submitted together with alternative tenders. |
| 4.12 | No alternative tender offers will be considered |
| 4.13.1 | Parts of each tender offer communicated on paper shall be submitted as an original. Submit a) the parts of the tender offer communicated on paper as an original plus the number of copies stated in the tender data, with a translation of any documentation in a language other than the language of communication established in 3.5 and b) The parts communicated electronically by the employer or its agents on paper format with the tender. |
| 4.13.2 | Sign the original and all copies of the tender offer where required in terms of the tender data. State in the case of a joint venture which of the signatories is the lead partner whom the employer shall hold liable for the purpose of the tender offer. NOTE The employer holds all authorized signatories liable on behalf of the tenderer. |
| 4.13.3 | A tender security in the amount of N/A is required and shall remain valid for a period not exceeding N/A days after the closing date for tender offers. The form of the tender security shall not differ substantially from the sample provided in Annex D of SANS 10845-3. |
| 4.13.4 | The employer's details and address for delivery of tender offers and identification details that are to be shown on each tender offer package are: Location of tender box: DEPARTMENT OF PUBLIC WORKS & INFRASTRUCTURE, FRONT CORNER OF QHASANA BUILDING ON THE WAY TO CIDB OFFICES LABELLED "TENDERS", BISHO. Physical address: Independence avenue, Ground Floor, Qhasana Building, Bisho 5605 Identification details: HO5 – 22/23 – 0076: Supply, Installation, Testing and Commissioning of 100kVA Standby Generator for Old Disaster Building in Bisho. CLOSING DATE AND TIME: 12 September 2022 at 11:00 am. |
| 4.13.5 | The tenderer is required to submit with his tender the following certificates: 1) a copy of the CSD report showing, amongst other things, that tax matters of the service provider are in order the South African Revenue Services. 2) CIDB Grading certificate or CRS number. |
| 4.13.6 | A two-envelope procedure will not be required. |
| 4.13.7 | Telephonic, telegraphic, telex, facsimile or e-mailed tender offers will not be accepted. The tenderer accepts that the employer does not assume any responsibility for the misplacement or premature opening of the tender offer if the outer package is not sealed and marked as stated. |

| | |
|----------|---|
| 4.14 | <p>The closing time for submission of tender offers is as stated in the Tender Notice and Invitation to Tender.</p> <p>Ensure that the employer receives the tender offer at the address specified in the tender data not later than the closing time stated in the tender data. Proof of posting shall not be accepted as proof of delivery.</p> <p>Accept that, if the employer extends the closing time stated in the tender data for any reason, the requirements of the standard conditions of tender in this part of SANS 10845 apply equally to the extended deadline.</p> |
| 4.15.1 | <p>The tender offer validity period is 60 days.</p> <p>Hold the tender offer(s) valid for acceptance by the employer at any time during the validity period stated in the tender data after the closing time stated in the tender data. If requested by the employer, consider extending the validity period stated in the tender data for an agreed additional period, with or without any conditions attached to such extension. Extend the period of the tender security, if any, to cover any agreed extension requested by the employer.</p> |
| 4.15.2 | <p>Placing of service providers under restrictions / withdrawal of tenders</p> <p>If any tenderer who has submitted a tender offer or a contractor who has concluded a contract has, as relevant: withdrawn such tender or quotation after the advertised closing date and time for the receipt of submissions; after having been notified of the acceptance of his tender, failed or refused to commence the contract; had their contract terminated for reasons within their control without reasonable cause; offered, promised or given a bribe in relation to the obtaining or the execution of such contract; acted in a fraudulent, collusive or anti-competitive or improper manner or in bad faith towards the Provincial Government; or, made any incorrect statement in any affidavit or declaration with regard to a preference claimed and is unable to prove to the satisfaction of the Provincial Government that the statement was made in good faith or reasonable steps were taken to confirm the correctness of the statements, such tenderer/s may be placed under restriction from tendering with the state. Procedures are outlined in the EC SCM Policy for Infrastructure procurement and Delivery Management and also on cidb Inform Practice Note #30. Excerpts of the policy can be availed on request of any interested tenderer.</p> |
| 4.16 | Access shall be provided for the following inspections, tests and analysis: N/A |
| 4.17 | the preferred tenderer will be required to submit an approved insurer undertaking to provide the Performance Bond / Guarantee / Surety / Security to the format and/or standard as per DPW policy |
| 5 | Employer's undertakings |
| 5.1 | <p>The Employer will respond to requests for clarification received up to One (1) working day before the tender closing time.</p> <p>If, as a result of the issuing of addenda, it is necessary to extend the closing time stated in the tender data, grant such extension and notify all respondents accordingly.</p> |
| 5.2 | The employer shall issue addenda until Two (2) working days before tender closing time. |
| 5.3 | Tenders will be opened immediately after the closing time for tenders at 11:00am hours . |
| 5.4 | Do not disclose to tenderers, or to any person not officially concerned with such processes, information relating to the evaluation and comparison of tender offers, the final evaluation price and recommendations for the award of a contract, until after the award of the contract to the successful tenderer. |

| 5.5 | <p>Determine, after opening and before detailed evaluation, whether each tender offer that was properly received</p> <p>a) complies with the requirements of the standard conditions of tender in this part of SANS 10845,</p> <p>b) has been properly and fully completed and signed, and</p> <p>c) is responsive to the other requirements of the tender documents.</p> <p>A responsive tender is one that conforms to all the terms, conditions, and scope of work of the tender documents, without material deviation or qualification. A material deviation or qualification is one which, in the employer's opinion, would</p> <p>d) detrimentally affect the scope, quality, or performance of the works, services or supply identified in the scope of work,</p> <p>e) significantly change the employer's or the tenderer's risks and responsibilities under the contract, or</p> <p>f) Affect the competitive position of other tenderers presenting responsive tenders, if it were to be rectified.</p> <p>Reject a non-responsive tender offer, and do not allow it to be subsequently made responsive by correction or withdrawal of the non-conforming deviation or reservation.</p> | | | | | | | | | | | | |
|---------|--|--|-------------------------------|-----------------------|-----------------------|---|---------------------------|--|---------------|---|---|--|---------------|
| 5.6 | <p>Arithmetical errors, omission and discrepancies</p> <p>Check responsive tenders for discrepancies between amounts in words and amounts in figures. Where there is a discrepancy between the amounts in figures and the amount in words, the amount in words shall govern.</p> <p>For Vat related discrepancies, National and Provincial Treasury prescripts in relation to VAT procedures apply.</p> | | | | | | | | | | | | |
| 5.7.1 | <p>The financial offer will be reduced to a comparative basis using the Tender Assessment Schedule.</p> <p>Table F.1: Formulae for calculating the value of A</p> <table><tr><th>Formula</th><th>Comparison aimed at achieving</th><th>Option 1^a</th><th>Option 2^a</th></tr><tr><td>1</td><td>Highest price or discount</td><td>$A = \left(1 + \frac{(P - P_m)}{P_m} \right)$</td><td>$A = P / P_m$</td></tr><tr><td>2</td><td>Lowest price or percentage commission / fee</td><td>$A = \left(1 - \frac{(P - P_m)}{P_m} \right)$</td><td>$A = P_m / P$</td></tr></table> <p>^a P_m is the comparative offer of the most favourable comparative offer. P is the comparative offer of the tender offer under consideration.</p> | Formula | Comparison aimed at achieving | Option 1 ^a | Option 2 ^a | 1 | Highest price or discount | $A = \left(1 + \frac{(P - P_m)}{P_m} \right)$ | $A = P / P_m$ | 2 | Lowest price or percentage commission / fee | $A = \left(1 - \frac{(P - P_m)}{P_m} \right)$ | $A = P_m / P$ |
| Formula | Comparison aimed at achieving | Option 1 ^a | Option 2 ^a | | | | | | | | | | |
| 1 | Highest price or discount | $A = \left(1 + \frac{(P - P_m)}{P_m} \right)$ | $A = P / P_m$ | | | | | | | | | | |
| 2 | Lowest price or percentage commission / fee | $A = \left(1 - \frac{(P - P_m)}{P_m} \right)$ | $A = P_m / P$ | | | | | | | | | | |
| 5.7.2 | <p>The procedure for the evaluation of responsive tenders is Method 2: Responsiveness, Price and Preference:</p> <p>Phase 1: Administrative requirements and Mandatory requirements</p> <p>Phase 2: Price and preference (80/20 system)</p> <p>1. <u>PHASE ONE: RESPONSIVENESS TO THE BID REQUIREMENTS AND RULES</u></p> <p>2. Bidders' proposals must meet the following minimum requirements and supporting documents must be submitted with the completed bid document in a sealed envelope in the bid box at the closing date and time. Failure to comply will automatically eliminate the bid for further consideration:</p> <p>3. Bid Document (This Document must be submitted in its original format)</p> <p>4. Bids which are late, incomplete, unsigned or submitted by facsimile or electronically, will not be accepted.</p> <p>5. Bidder must be registered with CIDB in the correct grading and class of works as per the tender notice and requirements. And must the status on CIDB be</p> | | | | | | | | | | | | |

| | |
|--|---|
| | <p>active during award stage. It is the responsibility of the bidder to keep the status on CIDB active throughout bidding process (advert till award stage).</p> <ol style="list-style-type: none">6. Bidders must be a legal entity.7. Form of offer and Acceptance (fully completed and signed)8. SBD 4 – Bidders Disclosure (fully completed and signed).9. SBD4 must be duly completed and signed. Does the bidder or any of its directors / trustees / shareholders / members / partners or any person having a controlling interest in the enterprise have any interest in any other related enterprise whether or not they are bidding for this contract, such interest must be disclosed on question 2.3.1.10. If the offer is “Vat Inclusive”, the VAT registration number of service provider must be indicated and if a service provider is not a VAT Vendor but include VAT in its prices, the successful service provider will be given 21 days to register as a VAT Vendor with SARS, after the issuing of an appointment letter. If a bidder is a VAT vendor/registered, the bidder is required to explicitly state the VAT amount. VAT vendors must include VAT at 15% in the bid offer(s).11. Resolution to Sign (if applicable)12. Attendance of compulsory briefing meeting13. This tender will be awarded as a whole. All trades listed in the Bills of Quantities or Pricing schedule must be priced for (except provisional sums and allowances), failure to do so will result increase commercial risk of the bid and may lead to elimination or passing over of the bidder14. If the Bid Sum (amount in words) as per the Form of Offer differs from the Bill of Quantities (BOQ), it will automatically invalidate the offer submitted.15. Only Grade 2 EB only can submit bids.16. All electrical services shall be carried out by person/s who hold a valid Electrical Trade Test Certificate and a 3 phase Wireman’s Licence (Attach letter from Department of Labor).17. During the evaluation, the SCM policies will be used. <p>Other Conditions of bid (Non eliminating unless expressly mentioned in the document):</p> <ol style="list-style-type: none">18. DPW Policy applies.19. Returnable Schedule: SBD1-Invitation to bid must be completed and signed20. The bidder must be registered on the Central Supplier Database (CSD) prior the award21. All bidders’ tax matters must be in order prior award. Bidders’ tax matters will be verified through CSD.22. Declaration of Employees of the State or other State Institutions.23. Bidders must submit a minimum of One (1) written contactable references for projects successfully completed in the past (clearly indicating client name, contract value, contract term, contact person, contact details). Refer to Annexure I and Annexure M. This is not an elimination factor, but important for the department to make a decision. Unless it is used for Quality/functionality Points.24. Bidders must submit a list of projects where he or she has submitted tender offers but the client has not confirmed tender results. Refer to Annexure L. This is not an elimination factor, but important for the department to make a decision. Unless it is used for Quality/functionality Points.25. Bidders must submit their company profiles, list of available resources, plant and machinery and any other additional capacity with the bid. Refer to Annexure K and H. This is not an elimination factor, but important for the department to make a decision. Unless it is used for Quality/functionality Points. |
|--|---|

| | <p>26. The bidder must also list all projects where there are pending litigations or litigations have been concluded. The form for this is also attached after Annexure J.</p> <p>27. The Department will contract with the successful bidder by signing a formal contract.</p> <p>28. This tender will be awarded as a whole. All trades listed in the Bill of Quantities or Pricing schedule must be priced for (except provisional sums and allowances, which need to be added to the total), failure to do so will increase commercial risk of the bid and may lead to elimination or passing over of the bidder.</p> <p>29. Wherever a brand name is specified in this document (i.e. specifications, pricing schedule, bill of quantities or anywhere), the department requires an item similar/equivalent or better.</p> <p>30. The successful tenderer (after being informed) will be required to bring along an unsigned copy of the form of contract to be signed by parties (e.g. JBCC PBA 2000, edition 4.1 of 2005 with amendment of 6.2 original copy.)</p> <p>31. A valid original or certified copy of B-BBEE Certificate must be submitted with the bid OR a valid original or certified copy of a Sworn Affidavit attested by a commissioner of Oaths prepared and issued in terms of the amended B-BBEE Construction Sector Codes (CSC000) must be submitted in order to qualify for preference points for B-BBEE.</p> <p>32. PHASE TWO: EVALUATION POINTS ON PRICE AND B-BBEE REGULATIONS OF 2017 The 80/20 preference point system shall be applied for the purposes of this bid as per the requirements of the <i>Preferential Procurement Policy Framework Act, 2000 (Act No. 5 of 2000)</i> and B-BBEE/ PPPFA Regulations of 2017</p> <table border="1"> <thead> <tr> <th>Criteria</th><th>Points</th></tr> </thead> <tbody> <tr> <td>POINTS ON PRICE</td><td>80</td></tr> <tr> <td>B-BBEE</td><td>20</td></tr> <tr> <td>TOTAL</td><td>100</td></tr> </tbody> </table> <p>The 80/20 preference point system for acquisition of services, works or goods up to Rand value of R50 million:</p> <p>(a) The following formula must be used to calculate the points for price in respect of tenders (including price quotation) with a Rand value equal to, or above R 30 000 and up to Rand value of R 50 000 000 (all applicable taxes included):</p> <p>The financial offer will be scored using the following formula:</p> $A = (1 - \frac{P - P_m}{P_m})$ <p>The value of value of W_1 is:</p> <p>1) 90 where the financial value inclusive of VAT of all responsive tenders received have a value in excess of R50 000 000 or</p> <p>2) 80 where the financial value inclusive of VAT of one or more responsive tender offers have a value that equals or is less than R 50 000 000.</p> | Criteria | Points | POINTS ON PRICE | 80 | B-BBEE | 20 | TOTAL | 100 |
|------------------------|---|----------|--------|------------------------|-----------|---------------|-----------|--------------|------------|
| Criteria | Points | | | | | | | | |
| POINTS ON PRICE | 80 | | | | | | | | |
| B-BBEE | 20 | | | | | | | | |
| TOTAL | 100 | | | | | | | | |
| 5.7.3 | The procedure for the evaluation of responsive tenders is Method 2 (responsiveness, price and preference) | | | | | | | | |
| 5.7.4 | The quality criteria and maximum score in respect of each of the criteria are as follows: N/A | | | | | | | | |

| | |
|-------|--|
| 5.7.5 | Each evaluation criteria will be assessed in terms of five indicators – N/A |
| 5.7.6 | The prompts for judgment and the associated scores used in the evaluation of quality shall be as follows: N/A |
| 5.8 | <p>Tender offers will only be accepted if:</p> <ul style="list-style-type: none"> a) the tenderer is registered on the Central Supplier Database (CSD) for the South African government (see https://secure.csd.gov.za/) unless it is a foreign supplier with no local registered entity b) the tenderer is in good standing with SARS according to the Central Supplier Database. Bidders must submit a CSD no. or tax status compliance pin. c) the preferred tenderer will be required to submit an approved insurer undertaking to provide the Performance Bond / Guarantee / Surety / Security to the format and/or standard as per DPWI policy. d) the tenderer is registered with the Construction Industry Development Board in an appropriate contractor grading designation; e) the tenderer or any of its directors/shareholders is not listed on the Register of Tender Defaulters in terms of the Prevention and Combating of Corrupt Activities Act of 2004 as a person prohibited from doing business with the public sector; f) the tenderer has not: <ul style="list-style-type: none"> i) abused the Employer's Supply Chain Management System; or ii) failed to perform on any previous contract and has been given a written notice to this effect; g) the tenderer has completed the Compulsory Declaration and there are no conflicts of interest which may impact on the tenderer's ability to perform the contract in the best interests of the employer or potentially compromise the tender process; h) the tenderer has completed the Compulsory Enterprise Questionnaire and there are no conflicts of interest which may impact on the tenderer's ability to perform the contract in the best interests of the employer or potentially compromise the tender process and persons in the employ of the state are permitted to submit tenders or participate in the contract; i) Bids which are late, incomplete, unsigned or submitted by facsimile or electronically will not be accepted. j) the tenderer is registered and in good standing with the compensation fund or with a licensed compensation insurer;. k) the employer is reasonably satisfied that the tenderer has in terms of the Construction Regulations, 2014, issued in terms of the Occupational Health and Safety Act, 85 of 2014 the necessary competencies and resources to carry out the work safely. l) The tender has offered a market related offer. If the offer is believed not to be market related, the department through its Supply Chain Management bid committees will attempt to negotiate the offer with identified bidder/s to a reasonable amount. Bidders are not allowed to increase their tender offers during this process. m) A Resolution of signatory form has been completed and signed by director/s or a letter bearing a letterhead of the tenderer has been attached (specific to this bid) to the bid submission; it must be duly signed by all directors and submitted the bid. Only a duly authorized official can sign the bid. n) Prospective bidders must register on CSD prior submitting bids (open tenders). Any prospective bidder found to have Tax matters not in order with SARS (verified through CSD) during the evaluation process (after being given an opportunity to rectify tax matters) will be eliminated and not be considered further in the process. Preferred |

| | |
|-------|--|
| | <p>bidder/s will be afforded an opportunity to rectify their tax affairs within 7 days. A bidder that fails to rectify its tax matters with SARS will be eliminated.</p> <p>o) NOTE: The amount reflected on the Form of Offer and Acceptance takes precedence over any other total amount indicated elsewhere in bidder's tender submission. If the Form of Offer and Acceptance has no value or figure, the bidder will be regarded as having made no offer.</p> <p>p) The department reserves the right not to award the bid to the most favorable tenderer, if any of the situations occur: if it is not assisting in the advancement of designated groups; risk profile of the favorable firm is too high; the bidder has been awarded a considerable number of projects by the department or provincial government; has performed unsatisfactorily in the past, etc.</p> |
| 5.9 | The number of paper copies of the signed contract to be provided by the employer is 1. |
| | <p>The additional conditions of tender are:</p> <ul style="list-style-type: none"> • Wherever a brand name is specified in this document (i.e. specifications, pricing schedule, bill of quantities or anywhere), the department requires an item similar/equivalent or better. |
| T.2.1 | A. List of returnable documents |
| 1 | <p>Documentation to demonstrate eligibility to have tenders evaluated i.e. List all documentation to demonstrate eligibility to have a submission evaluated.</p> <ul style="list-style-type: none"> • Appropriate CIDB grading suitable for the works (as stated in 4.1). |
| 2 | <p>Returnable Schedules required for tender evaluation purposes</p> <p>The tenderer must fully and appropriately complete and sign the following returnable schedules as relevant:</p> <ul style="list-style-type: none"> • Record of Addenda to Tender Documents • Proposed amendments and qualifications • SBD 1, 4, 6.1. • Form of Offer and Acceptance • Final Summary of Bills of Quantities or a complete Pricing Schedule |
| 3 | <p>Other documents required for tender evaluation purposes</p> <p>The tenderer must provide the following returnable documents:</p> <ul style="list-style-type: none"> • And original or certified copy of a valid BBBEE Verification certificate from a verification agency accredited by SANAS and recognized as an Accredited BBBEE Verification Agencies (see www.sanas.co.za/directory/bbee_default.php) if preference points are claimed in respect of Broad-Based Black Economic Empowerment. A tenderer which is an EME or QSE can submit a duly signed original or certified copy of a Sworn Affidavit attested by a Commissioner of Oaths and attested by a Commissioner of Oaths Sworn Affidavit form. For an entity tendering as a joint venture, a valid consolidated BBBEE Certificate meeting same requirements must be submitted with the bid. Failure to do so zero points will be allocated for BBBEE status level. • A CSD Report for a contractor with valid and correct information. • A letter if good standing from the Compensation Fund or a licensed insurer as contemplated in the Compensation for Occupational Injuries and Diseases Act 1993 (Act No. 130 of 1993) |

| | |
|---|--|
| 4 | <p>Returnable Schedules that will be used for tender evaluation purposes and be incorporated into the contract</p> <p>The tenderer must complete the following returnable documents:</p> <ul style="list-style-type: none"> A duly completed form of Offer and Acceptance (and any revision of prices if there are any). |
| 5 | <p>Only authorized signatories may sign the original and all copies of the tender offer where required.</p> <p>In the case of a ONE-PERSON CONCERN submitting a tender, this shall be clearly stated.</p> <p>In the case of a COMPANY submitting a tender, include a copy of a <u>resolution by its board of directors</u> authorizing a director or other official of the company to sign the documents on behalf of the company.</p> <p>In the case of a CLOSE CORPORATION submitting a tender, include a copy of a <u>resolution by its members</u> authorizing a member or other official of the corporation to sign the documents on each member's behalf.</p> |
| 6 | <p>Information and data to be completed in all respects</p> <p>Accept that tender offers, which do not provide all the data or information requested completely and in the form required, may be regarded by the employer as nonresponsive.</p> |
| 7 | <p>Canvassing and obtaining of additional information by tenderers</p> <p>The Tenderer shall not make any attempt either directly or indirectly to canvass any of the Employer's officials or the Employer's agent in respect of his tender, after the opening of the tenders but prior to the Employer arriving at a decision thereon.</p> <p>The Tenderer shall not make any attempt to obtain particulars of any relevant information, other than that disclosed at the opening of tenders.</p> |
| 8 | <p>Prohibitions on awards to persons in service of the state</p> <p>The Employer is prohibited to award a tender to a person -</p> <ol style="list-style-type: none"> who is in the service of the state; or if that person is not a natural person, of which any director, manager, principal shareholder or stakeholder is a person in the service of the state; or a person who is an advisor or consultant contracted with the Department or municipal entity. <p>In the service of the state means to be -</p> <ol style="list-style-type: none"> a member of:- <ol style="list-style-type: none"> any municipal council; any provincial legislature; or the National Assembly or the National Council of Provinces; a member of the board of directors of any municipal entity; an official of any Department or municipal entity; an employee of any national or provincial department; provincial public entity or constitutional institution within the meaning of the Public Finance Management Act, 1999 (Act No.1 of 1999); a member of the accounting authority of any national or provincial public entity; or and employee of Parliament or a provincial legislature. |

| | |
|----|---|
| | In order to give effect to the above, the questionnaire for the declaration of interests in the tender of persons in service of state in part T2 of this procurement document must be completed. |
| 9 | <p>Awards to close family members of persons in the service of the state</p> <p>Accept that the notes to the Employer's annual financial statements must disclose particulars of any award of more than R2000 to a person who is a spouse, child or parent of a person in the service of the state (defined in clause 8 above), or has been in the service of the state in the previous twelve months, including - a) the name of that person; b) the capacity in which that person is in the service of the state; and c) The amount of the award.</p> <p>In order to give effect to the above, the questionnaire for the declaration of interests in the tender of persons in service of state in part T2 of this procurement document must be completed.</p> |
| 10 | <p>Respond to requests from the tenderer</p> <p>The employer will respond to requests for clarification up to 1 (ONE) working day before the tender closing time.</p> |
| 11 | <p>Opening of tender submissions</p> <p>Tenders will be opened immediately after the closing time for tenders</p> |
| 12 | Scoring quality / functionality: N/A |
| 13 | <p>Cancellation and re-invitation of tenders</p> <p>An organ of state may, prior to the award of the tender, cancel the tender if-</p> <ul style="list-style-type: none"> (a) due to changed circumstances, there is no longer a need for the services, works or goods requested; or (b) funds are no longer available to cover the total envisaged expenditure; or (c) No acceptable tenders are received. (d) Tender validity period has expired. (e) Gross irregularities in the tender processes and/or tender documents. (f) No market related offer received (after attempts of negotiation processes) <p>Where applicable, the decision to cancel the tender will be published in the CIDB website and in the Tender Bulletin or the media in which the original tender invitation as advertised.</p> |
| 14 | Dispute resolution mechanism will be done through the Adjudication route. |
| 15 | <p>The department must when acting against the tenderer or person awarded the contract on a fraudulent basis, considers the provisions of Regulation 14:</p> <p>The remedies provided for in Preferential Procurement Regulations 2017 do not prevent an institution from instituting remedies arising from any other prescripts or contract.</p> |
| 16 | <p>Where the employer terminates the contract due to default of the contractor in whole or in part, the employer may decide to: a) Refer the breach in contract to the cidb for investigation as a breach of the cidb Code of Conduct in terms of the cidb Regulations; or b) may impose a restriction penalty on the contractor in terms of Section 14 of the Preferential Procurement Regulations. The outcomes of such investigations in terms of both the cidb Regulations and the Preferential Procurement Regulations may prohibit the contractor from doing business with the public sector for a period not exceeding 10 years.</p> |

| | | |

2.2 Do you, or any person connected with the bidder, have a relationship with any person who is employed by the procuring institution? **YES/NO**

2.2.1 If so, furnish particulars:

.....
.....

2.3 Does the bidder or any of its directors / trustees / shareholders / members / partners or any person having a controlling interest in the enterprise have any interest in any other related enterprise whether or not they are bidding for this contract? **YES/NO**

¹ the power, by one person or a group of persons holding the majority of the equity of an enterprise, alternatively, the person/s having the deciding vote or power to influence or to direct the course and decisions of the enterprise.

2.3.1 If so, furnish particulars:

.....
.....

3 DECLARATION

I, the undersigned, (name)..... in submitting the accompanying bid, do hereby make the following statements that I certify to be true and complete in every respect:

- 3.1 I have read and I understand the contents of this disclosure;
- 3.2 I understand that the accompanying bid will be disqualified if this disclosure is found not to be true and complete in every respect;
- 3.3 The bidder has arrived at the accompanying bid independently from, and without consultation, communication, agreement or arrangement with any competitor. However, communication between partners in a joint venture or consortium² will not be construed as collusive bidding.
- 3.4 In addition, there have been no consultations, communications, agreements or arrangements with any competitor regarding the quality, quantity, specifications, prices, including methods, factors or formulas used to calculate prices, market allocation, the intention or decision to submit or not to submit the bid, bidding with the intention not to win the bid and conditions or delivery particulars of the products or services to which this bid invitation relates.
- 3.4 The terms of the accompanying bid have not been, and will not be, disclosed by the bidder, directly or indirectly, to any competitor, prior to the date and time of the official bid opening or of the awarding of the contract.
- 3.5 There have been no consultations, communications, agreements or arrangements made by the bidder with any official of the procuring institution in relation to this procurement process prior to and during the bidding process except to provide clarification on the bid submitted where so required by the institution; and the bidder was not involved in the drafting of the specifications or terms of reference for this bid.
- 3.6 I am aware that, in addition and without prejudice to any other remedy provided to combat any restrictive practices related to bids and contracts, bids that are suspicious will be reported to the Competition Commission for investigation and possible imposition of administrative penalties in terms of section 59 of the Competition Act No 89 of 1998 and or may be reported to the National Prosecuting Authority (NPA) for criminal investigation and or may be restricted from conducting business with the public sector for a period not exceeding ten (10) years in terms of the Prevention and Combating of Corrupt Activities Act No 12 of 2004 or any other applicable legislation.

I CERTIFY THAT THE INFORMATION FURNISHED IN PARAGRAPHS 1, 2 and 3 ABOVE IS CORRECT.

I ACCEPT THAT THE STATE MAY REJECT THE BID OR ACT AGAINST ME IN TERMS OF PARAGRAPH 6 OF PFMA SCM INSTRUCTION 03 OF 2021/22 ON PREVENTING AND COMBATING ABUSE IN THE SUPPLY CHAIN MANAGEMENT SYSTEM SHOULD THIS DECLARATION PROVE TO BE FALSE.

² Joint venture or Consortium means an association of persons for the purpose of combining their expertise, property, capital, efforts, skill and knowledge in an activity for the execution of a contract.

PREFERENCE POINTS CLAIM FORM IN TERMS OF THE PREFERENTIAL PROCUREMENT REGULATIONS 2017

This preference form must form part of all bids invited. It contains general information and serves as a claim form for preference points for Broad-Based Black Economic Empowerment (B-BBEE) Status Level of Contribution

NB: BEFORE COMPLETING THIS FORM, BIDDERS MUST STUDY THE GENERAL CONDITIONS, DEFINITIONS AND DIRECTIVES APPLICABLE IN RESPECT OF B-BBEE, AS PRESCRIBED IN THE PREFERENTIAL PROCUREMENT REGULATIONS, 2017.

1. GENERAL CONDITIONS

1.1 The following preference point systems are applicable to all bids:

- the 80/20 system for requirements with a Rand value of up to R50 000 000 (all applicable taxes included); and
- the 90/10 system for requirements with a Rand value above R50 000 000 (all applicable taxes included).

1.2

- a) The value of this bid is estimated to **not exceed** R1 000 000 (all applicable taxes included) and therefore the **80/20** preference point system shall be applicable; or
- b) Either the 80/20 preference point system will be applicable to this tender Points for this bid shall be awarded for:
- (a) Price; and
- (b) B-BBEE Status Level of Contributor.

1.3 The maximum points for this bid are allocated as follows:

| | POINTS |
|---|--------|
| PRICE | 80 |
| B-BBEE STATUS LEVEL OF CONTRIBUTOR | 20 |
| Total points for Price and B-BBEE must not exceed | 100 |

1.4 Failure on the part of a bidder to submit proof of B-BBEE Status level of contributor together with the bid, will be interpreted to mean that preference points for B-BBEE status level of contribution are not claimed.

1.5 The purchaser reserves the right to require of a bidder, either before a bid is adjudicated or at any time subsequently, to substantiate any claim in regard to preferences, in any manner required by the purchaser.

2. DEFINITIONS

- (a) **"B-BBEE"** means broad-based black economic empowerment as defined in section 1 of the Broad-Based Black Economic Empowerment Act;
- (b) **"B-BBEE status level of contributor"** means the B-BBEE status of an entity in terms of a code of good practice on black economic empowerment, issued in terms of section 9(1) of the Broad-Based Black Economic Empowerment Act;

- (c) **“bid”** means a written offer in a prescribed or stipulated form in response to an invitation by an organ of state for the provision of goods or services, through price quotations, advertised competitive bidding processes or proposals;
- (d) **“Broad-Based Black Economic Empowerment Act”** means the Broad-Based Black Economic Empowerment Act, 2003 (Act No. 53 of 2003);
- (e) **“EME”** means an Exempted Micro Enterprise in terms of a code of good practice on black economic empowerment issued in terms of section 9 (1) of the Broad-Based Black Economic Empowerment Act;
- (f) **“functionality”** means the ability of a tenderer to provide goods or services in accordance with specifications as set out in the tender documents.
- (g) **“prices”** includes all applicable taxes less all unconditional discounts;
- (h) **“proof of B-BBEE status level of contributor”** means:
 - 1) B-BBEE Status level certificate issued by an authorized body or person;
 - 2) A sworn affidavit as prescribed by the B-BBEE Codes of Good Practice;
 - 3) Any other requirement prescribed in terms of the B-BBEE Act;
- (i) **“QSE”** means a qualifying small business enterprise in terms of a code of good practice on black economic empowerment issued in terms of section 9 (1) of the Broad-Based Black Economic Empowerment Act;
- (j) **“rand value”** means the total estimated value of a contract in Rand, calculated at the time of bid invitation, and includes all applicable taxes;

3. POINTS AWARDED FOR PRICE

3.1 THE 80/20 OR 90/10 PREFERENCE POINT SYSTEMS

A maximum of 80 or 90 points is allocated for price on the following basis:

$$\begin{array}{ccc}
 \mathbf{80/20} & \mathbf{or} & \mathbf{90/10} \\
 P_s = 80 \left(1 - \frac{P_t - P_{\min}}{P_{\min}} \right) & \text{or} & P_s = 90 \left(1 - \frac{P_t - P_{\min}}{P_{\min}} \right)
 \end{array}$$

Where

- P_s = Points scored for price of bid under consideration
- P_t = Price of bid under consideration
- P_{\min} = Price of lowest acceptable bid

4. POINTS AWARDED FOR B-BBEE STATUS LEVEL OF CONTRIBUTOR

- 4.1 In terms of Regulation 6 (2) and 7 (2) of the Preferential Procurement Regulations, preference points must be awarded to a bidder for attaining the B-BBEE status level of contribution in accordance with the table below:

| B-BBEE Status Level of Contributor | Number of points (90/10 system) | Number of points (80/20 system) |
|------------------------------------|---------------------------------|---------------------------------|
| 1 | 10 | 20 |
| 2 | 9 | 18 |
| 3 | 6 | 14 |
| 4 | 5 | 12 |
| 5 | 4 | 8 |
| 6 | 3 | 6 |
| 7 | 2 | 4 |
| 8 | 1 | 2 |
| Non-compliant contributor | 0 | 0 |

5. BID DECLARATION

5.1 Bidders who claim points in respect of B-BBEE Status Level of Contribution must complete the following:

6. B-BBEE STATUS LEVEL OF CONTRIBUTOR CLAIMED IN TERMS OF PARAGRAPHS 1.4 AND 4.1

6.1 B-BBEE Status Level of Contributor: . = (maximum of 10 or 20 points)
(Points claimed in respect of paragraph 7.1 must be in accordance with the table reflected in paragraph 4.1 and must be substantiated by relevant proof of B-BBEE status level of contributor.)

PROCESS WHEN REQUESTING EXEMPTION LETTERS

For exemption requests on designated products and the minimum threshold for local content cannot be met for various reasons, bidders must apply for exemption per tender. After checking with the industry, the DTI will decide whether to grant an exemption or not.

In the official request (signed letter), the following information should be included:

- Procuring entity/government department/state owned company.
- Tender/bid number.
- Closing date.
- Item(s) for which the exemption is being requested for.
- Description of the goods, services or works for which the requested exemption item will be used for and the local content that can be met.
- Reason(s) for the request.
- Supporting letters from local manufacturers and suppliers.

NB - Exemption letters are tender specific and applications are not transferrable.

The turnaround time in response to exemption letters for all designated products is five working days with the exception of rail and boats/vessels which is seven working days.

Request for exemption letters are to be directed to:

Dr Tebogo Makube

Chief Director: Industrial Procurement

Tel: 012 394 3927

E-mail: tmakube@thedti.gov.za.

The turnaround time in response to textile, clothing, leather and footwear exemption letters request is two working days and requests are to be directed to:

Patricia Khumalo

Tel: 012 394 1390

E-mail: khumaloP@thedti.gov.za

FORM OF OFFER AND ACCEPTANCE

| | |
|----------------------|--|
| Project title | Supply, Installation, Testing and Commissioning of 100kVA Standby Generator for Old Disaster Building in Bisho. |
| HO number | HO5 – 22/23 – 0076 |

OFFER

The employer, identified in the acceptance signature block, has solicited offers to enter into a contract for the procurement of:

.....
The tenderer, identified in the offer signature block, has examined the documents listed in the tender data and addenda thereto as listed in the returnable schedules, and by submitting this offer has accepted the conditions of tender.

By the representative of the tenderer, deemed to be duly authorized, signing this part of this form of offer and acceptance, the tenderer offers to perform all of the obligations and liabilities of the contractor under the contract including compliance with all its terms and conditions according to their true intent and meaning for an amount to be determined in accordance with the conditions of contract identified in the contract data.

THE OFFERED TOTAL OF THE PRICES INCLUSIVE OF VALUE ADDED TAX IS

.....Rand (in words);

R(in figures) (or

other suitable wording)

This offer may be accepted by the employer by signing the acceptance part of this form of offer and acceptance and returning one copy of this document to the tenderer before the end of the period of validity stated in the tender data, whereupon the tenderer becomes the party named as the contractor in the conditions of contract identified in the contract data.

ACCEPTANCE

By signing this part of this form of offer and acceptance, the employer identified below accepts the tenderer's offer. In consideration thereof, the employer shall pay the contractor the amount due in accordance with the conditions of contract identified in the contract data. Acceptance of the tenderer's offer shall form an agreement between the employer and the tenderer upon the terms and conditions contained in this agreement and in the contract that is the subject of this agreement.

The terms of the contract, are contained in:

Part C1 Agreements and contract data, (which includes this agreement)
Part C2 Pricing data
Part C3 Scope of work.
Part C4 Site information and drawings and documents or parts thereof, which may be incorporated by reference into the above listed Parts.

Deviations from and amendments to the documents listed in the tender data and any addenda thereto as listed in the returnable schedules as well as any changes to the terms of the offer agreed by the tenderer and the employer during this process of offer and acceptance, are contained in the schedule of deviations attached to and forming part of this form of offer and acceptance. No amendments to or deviations from said documents are valid unless contained in this schedule.

The tenderer shall within 3 weeks after receiving a completed copy of this agreement, including the schedule of deviations (if any), contact the employer's agent (whose details are given in the contract data) to arrange the delivery of any securities, bonds, guarantees, proof of insurance and any other documentation to be provided in terms of the conditions of contract identified in the contract data. Failure to fulfil any of these obligations in accordance with those terms shall constitute a repudiation of this agreement.

Notwithstanding anything contained herein, this agreement comes into effect on the date when the tenderer receives one fully completed original copy of this document, including the schedule of deviations (if any). Unless the tenderer (now contractor) within five working days of the date of such receipt notifies the employer in writing of any reason why he cannot accept the contents of this agreement, this agreement shall constitute a binding contract between the parties.¹

By the duly authorised representatives signing this agreement, the employer and the tenderer agree to and accept the foregoing schedule of deviations as the only deviations from and amendments to the documents listed in the tender data and addenda thereto as listed in the tender schedules, as well as any confirmation, clarification or changes to the terms of the offer agreed by the tenderer and the employer during this process of offer and acceptance.

It is expressly agreed that no other matter whether in writing, oral communication or implied during the period between the issue of the tender/ quotation documents and the receipt by the tenderer of a completed signed copy of this Agreement shall have any meaning or effect in the contract between the parties arising from this agreement.

¹ As an alternative, the following wording may be used:

Notwithstanding anything contained herein, this agreement comes into effect two working days after the submission by the employer of one fully completed original copy of this document including the schedule of deviations (if any), to a courier-to-counter delivery / counter-to-counter delivery / door-to-counter delivery /door-to-door delivery /courier service (delete that which is not applicable), provided that the employer notifies the tenderer of the tracking number within 24 hours of such submission. Unless the tenderer (now contractor) within seven working days of the date of such submission notifies the employer in writing of any reason why he cannot accept the contents of this agreement, this agreement shall constitute a binding contract between the parties

C1.3 CIDB ADJUDICATOR'S AGREEMENT

This agreement is made on the day of between:
 (name of company / organization) of
 (address) and
 (name of company / organization) of

 (address) (the Parties) and
 (name) of
 (address)
 (the Adjudicator).

Disputes or differences may arise/have arisen* between the Parties under a Contract dated and known as

and these disputes or differences shall
 be/have been* referred to adjudication in accordance with the CIDB Adjudication Procedure, (hereinafter called "the Procedure") and the Adjudicator may be or has been requested to act.

* Delete as necessary

IT IS NOW AGREED as follows:

- 1 The rights and obligations of the Adjudicator and the Parties shall be as set out in the Procedure.
- 2 The Adjudicator hereby accepts the appointment and agrees to conduct the adjudication in accordance with the Procedure.
- 3 The Parties bind themselves jointly and severally to pay the Adjudicator's fees and expenses in accordance with the Procedure as set out in the Contract Data.
- 4 The Parties and the Adjudicator shall at all times maintain the confidentiality of the adjudication and shall endeavour to ensure that anyone acting on their behalf or through them will do likewise, save with the consent of the other Parties which consent shall not be unreasonably refused.
- 5 The Adjudicator shall inform the Parties if he intends to destroy the documents which have been sent to him in relation to the adjudication and he shall retain documents for a further period at the request of either Party.

Delivery must be done within 6 weeks after receipt of works order.

B. 1 SCOPE OF WORK

This specification is for the supply and delivery, installation, commissioning of a containerized 400V four wire 3 phase and neutral Prime rated diesel engine driven emergency 100 KVA with Control Panel which can be operated from cellphone/s supply, delivery of 1500 Liter Stainless Steel Tank Oval.

Generator set and **all** ancillary equipment consisting of the following main components:

- 1.1 Containerized and sound proofed prime rated diesel engine and alternator operating in an ambient temperature of 45°C DB with a prime rated generating capacity of 100 kVA into a load with a power factor of 0.8 at an altitude of 650 meters above mean sea level.
- 1.2 Automatic mains failure starting system and automatic load transfer switch (change over switch) rated at least 20% more than the base load and capable of switching under full load conditions. The change over switch must also be fitted with a by-pass switch to allow for the servicing of the generator. The fault current capability of the change-over switch shall match the maximum possible fault current capability of the mains supply and generator set but shall not be less than 15kA. **(contactors will not be accepted as a means of load transfer / change over)**
- 1.2 Water and dust proof enclosure complete with heavy duty skid, air inlet and outlet acoustic louvers, separate diesel tank inside the enclosure, large enough for a diesel supply to run the generating unit under full load for at least twelve hours but with a minimum capacity of 400 liters, separate internal electrical control panel and all other requirements specified elsewhere. The complete skid, base and enclosure frame shall be manufactured from grade 300WA steel hot dipped galvanised and powder coated after manufacturing. A bund tank shall be bolted to the bottom frame capable of holding at least 110% of the diesel tank capacity.

- 1.3 Starting batteries and automatic charging system
- 1.4 Fuel system with fuel pump(s), fuel filters, fuel tank vent with dust filter and desiccant drier, moisture traps, high and low level indication and alarms, electronic fuel level indicator, moisture removal system and fuse-able link fuel cut off and engine stop system.
- 1.5 Automatic engine speed governor with an over speed cut off system.
- 1.6 Engine exhaust system complete with silencer, flexible coupling, thermal lagging with rain protector and water trap to prevent rain water entering manifold during periods of non use.
- 1.7 Electronic controller, monitoring and logging system complete with LCD display, data/gsm modem interface, programmable messaging, analog, digital and no voltage inputs and outputs, non-volatile memory, real time clock and the facility to upload and down load event logs, monitored parameters such as temperature, speed, voltage per phase and current per phase. GSM modem interface shall be complete with R500 pre-paid sim card capable of 3G communication from the site. The electronic controller shall be similar or equal to a LOVATO RGK60 with all relevant extension modules as described below.
- 1.8 Monitoring and interface software and interface cable with all interface modules to download parameters and monitor the machine performance and parameters from the electronic controller.
- 1.9 All internal power and control cabling from generator to and from main control panel inside enclosure with circuit breakers and protection to SANS 10142. All main isolators, circuit breakers, bypass switch and automatic change over switch shall be pre-wired to terminals capable of accepting at least 95mm² cable. The gland plates etc. shall be sturdy and positioned at a height where at least two 95mm² cables can be inserted from below and made off. The gland plates and all bracketing shall be galvanized. All electrical connections and open terminals shall be covered with 6mm thick fibre reinforced phenol resin sheet with 100% electrical insulation up to 800V
- 1.11 Anti vibration mountings on engine and generator.
- 1.12 Complete engine cooling system including anti-freeze and corrosion inhibitor. The radiator and cooling system shall be tropicalized.
- 1.13 All cabling and electrical work inside the generator enclosure to connect the automatic motorized change over switch to generator and the main incoming electrical supply and the main supply to the building. The installation electrician (not part of this contract) must only connect to pre-wired connection points inside the generator panel.
- 1.14 Generator design and construction detail drawings and full electrical control diagrams and manuals.
- 1.15 Two sets of maintenance and operating manuals, parts lists, manufacturers data sheets, maintenance schedules and list of recommended spares for all equipment.
- 1.16 All test certificates, compliance certificates and local authority approvals.
- 1.17 All other items and requirements, whether specifically mentioned or not, for a complete, functional and safe packaged emergency generator set complying with all the relevant codes and specifications.
- 1.18 All safety notices and safety equipment.
- 1.19 Noise control systems/insulation to limit the noise level to 60 dBA as measured in a free field 3 meters away from any surface of the generator set.
- 1.20 An off-site full load test complete with recorded performance parameters for 100% and 50% up and down load steps.

B. 2. 3 PHASE ALTERNATOR

- 2.1 The alternator shall be brushless, self-exciting and with self-regulating voltage control. The alternator shall conform to the requirements of BS 5000 (IEC 34-1)

- 2.2 The insulation class shall be at least H and the temperature rise shall be limited to 15% below the maximum as set in BS 5000 for the rotor and stator windings.
- 2.3 The alternator shall be prime rated and be capable of delivering an output at 110% of the specified output.
- 2.4 The rotor and stator windings shall be tropicalized and treated with oil and fuel resistant varnish. The windings shall be adequately braced and secured to prevent movement during the application of sudden maximum and/or overload. The bracing shall however allow for movement during thermal expansion.
- 2.5 The stator windings must be fitted with a PT100 temperature probe. The temperature probe must be connected to the system monitoring and alarm system.
- 2.6 The alternator output shall comply with the following:
- | | |
|--|---|
| Frequency: | 50 ± 1 Hz |
| Voltage: | 380/400V ± 5% 3 phase and neutral during all load conditions, power factor from 0.8 lagging to 1 and 4.5% speed variation during transient switching between no load and full load. |
| Deviation factor of voltage wave form: | 2% |
| Alternator Cooling: | Built in fan cooled with filter |
- 2.7 Alternator exciting system shall be such that recovery to within 5% of specified voltage can be achieved within 250ms during transient conditions. This includes sudden load changes from zero to 110% full load with a power factor of 0.8
- 2.8 Transient voltage dips shall not exceed 5% of the specified voltage.
- 2.9 The alternator shall be spigot mounted onto the engine and the shafts shall be connected with a shaft coupling working on the principle of rubber elements and interlocking cast steel blades. The coupling shall reduce the peak stresses in the shafts and torque shall be transmitted by compressing rubber elements. The rubber elements shall be oil and fuel resistant and capable of operating at the high temperatures present. The coupling shall be sized to withstand overload conditions and have a minimum life expectancy of 10 years.

B.3 ENGINE

The alternator drive shall be a diesel fuelled engine complying with the general requirements as extracted from the NDPW standard specification. The extract with amendments and additions are depicted below for ease of reference.

- 3.1 The engine must comply with the requirements as laid down in BS 5514 and must be of the atomised injection, compression ignition type, running at a speed not exceeding 1500 r.p.m. The engine must be amply **rated** for the required electrical output of the set, when running under the site conditions. The starting period for either manual or automatic switching-on until the taking over by the generating set, in one step, of a load equal to the **specified** site electrical output, shall not exceed 15 seconds. This must be guaranteed by the bidder.
- The generator and engine offered shall have accredited representatives in the Eastern Cape with a proven record of providing credible after sales and maintenance services for the past five years. All equipment shall be brand new and complete with manufacturers guarantee.
- 3.2 Turbo-charged engines will only be accepted if the bidder submits a written guarantee that the engine can deliver full load within the specified starting period.
- 3.3 The set shall be capable of delivering the specified output continuously under the site conditions, without overheating. The engine shall be capable of delivering an output of 110 % of the specified output for one hour in any period of 12 hours consecutive running in accordance with BS 5514.
- 3.4 The engine must be de-rated so that the required performance is achieved for the site conditions as indicated.
- 3.5 The de-rating of the engine for site conditions shall be strictly in accordance with BS 5514 of 1977 as amended to date. Any other methods of de-rating must have the approval of DRPW and must be motivated in detail. Such de-rating must be guaranteed in writing and proved by the successful bidder at the site test.

- 3.6 The engine shall be fitted with a battery operated starter motor and be easily started from cold, without the use of any special ignition devices under summer as well as winter conditions. Irrespective of the type of engine, an automatically controlled electrical heating system shall be installed to maintain the engine at min. 40 °C
Bidders must state what arrangements are provided to ensure easy starting in cold weather. Full details of this equipment must be submitted. In the case of water cooled engines, any electrical heaters shall be thermostatically controlled. The electrical circuit for such heaters shall be taken from the control panel, and must be protected by a suitable circuit breaker and over temperature safety thermostat.
- 3.7 The set must be supplied with fully charged lead-acid type battery(ies), complete with necessary electrolyte. The battery must have sufficient capacity to provide the starting torque stipulated by the engine makers. The battery capacity shall not be less than 120 Ah and shall be capable of providing three 45 second consecutive start attempts from cold and thereafter a fourth attempt under manual control of not less than 45 seconds duration each. The battery must be of the heavy duty "low maintenance" type, housed in a suitable battery box that cannot corrode. **The starting system shall however only initiate two single start attempt of 45 seconds after which the non-starting alarm shall be activated. The system must be manually reset in order to initiate another start attempt. The three start attempts described above is only for determining the battery capacity. The battery cable sizes shall be such that the starter motor short circuit current can be carried for at least five minutes. The battery charger shall be capable of charging at a rate of at least 8 Amps, shall be the "intelligent" type and shall be able to charge the battery from flat to fully charged in eight hours. The charger shall be such that over charging and electrolyte boiling cannot take place. The charger and starting controls shall be such that the charger is disconnected during the cranking cycle or that the starting current will not come from the charger circuit.**
To ensure the batteries are maintained in a good condition until unit is connected, a facility must be provided so that the battery can be charged from an external 220V supply until permanently connected.
- 3.8 The engine may be either of the air or water-cooled type. In the case of water-cooling, a built-on heavy duty, tropical type pressurized radiator must be fitted. The radiator shall be fitted with an expansion tank adequately sized to prevent any loss of coolant. The radiator fins, tubes and tanks shall be from copper and shall be treated against corrosion.
For either method of cooling, protection must be provided against running at excessive temperatures. The operation of this protective device must give a visual and audible indication on the control panel. Water-cooled engines shall in addition be fitted with a low water cut-out switch, installed in the radiator, to switch the set off in the event of a loss of coolant. The protection shall operate in the same way as the other cut-outs (e.g. low oil pressure). All air ducts for the cooling of the engine are to be allowed for. Ducts to be from galvanized sheet steel and painted. The air shall be supplied from the cooling fan cowl/radiator face to air outlet louvers in the enclosure. The cooling fan shall be capable of overcoming the resistance generated by the sound attenuating equipment as well as a full wind perpendicular to the outlet with a velocity of 40 m/s
The cooling fan shall be engine driven. All pipes, ducts etc. shall be fitted with flexible couplings to ensure that engine vibration is not transferred to the radiator. The radiator shall be fitted with an easy accessible drain point and shall be so positioned that fan belt and water pump maintenance can be carried out without the requirement of major dismantling procedures.
- All opening and louvers shall be fitted with corrosion proof insect screens.
- 3.9 Lubrication of the main bearings and other important moving parts shall be by an engine driven forced feed system. An automatic low oil pressure cut-out must be fitted, operating the stop solenoid on the engine and giving a visible and audible indication on the switchboard. If it is an air cooled engine, it shall be fitted with a crankcase heater to prevent condensation. The heaters shall be complete with over current and over temperature protection. On a water cooled engine, the coolant shall be kept at min. 40deg.C and shall be circulated through the engine.
- 3.10 The fuel pumps, engine and fuel injection equipment shall be suitable for operation with the commercial brands of 500PPM Sulphur content diesel fuel normally available in South Africa.
- 3.11 A fully bunded fuel tank shall be incorporated into the enclosure of the unit. The tank shall have sufficient capacity for the standby set to run the engine on full load for a period of 12 hours. The maximum tank size shall be 500 litres. An additional built in bunded area with drain valve shall be installed below the unit to prevent any spillage of fuel and oil. The bunded area shall be capable of holding at least 110% of the diesel

tank size. The fuel tank shall not be installed below the generator and engine but shall be mounted separately inside the enclosure.

A water trap and fuel purification system shall be fitted in the fuel pipeline from the tank to the engine. The main fuel line shall be fitted with a fuse-able link cut off valve to shut the valve in the event of a fire inside the container. Fire detectors coupled to an alarm and the engine shut off system shall also be fitted inside the container.

The tank shall be fitted with a lockable strainer filler cap, vent pipe fitted with a dust filter and desiccant to prevent moisture penetration, a full height gauge glass with guard, electronic fuel gauge, "low fuel level" alarm, giving an audible and visible signal on the switchboard as well as a low-low fuel level cut-out. The tank shall be manufactured from min. 2mm thick 3CR12 and shall be tested for leaks with a min. 3 meter high water column. Test certificate must be included in the manuals.

A manual pump with sufficient length of 20mm diameter oil resistant hose to reach 3m beyond the door shall be supplied, for filling the fuel tank.

The interconnection fuel piping shall consist of copper tubes (MIN. Class 3) and the connection to vibrating components shall be in fuel and heat resisting flexible tubing with armoured covering. No fuel lines shall be installed where leakage can cause fuel coming in contact with high temperature surfaces.

- 3.12 The speed of the engine shall be controlled by a governor in accordance with class A2 of BS 5514 of 1977 if not otherwise specified in the Technical Specification.

The permanent speed variation between no load and full load shall not exceed 4,5% of the normal engine speed and the temporary speed variation shall not exceed 10% External facilities must be provided on the engine, to adjust the normal speed setting by $\pm 5\%$ at all loads zero and rated load.

- 3.13 A suitable flywheel must be fitted, so that lights fed from the set will be free from any visible flicker and the voltage variations remain within the specified range.

The cyclic irregularity of the set must be within the limit laid down in BS 5514 of 1977.

- 3.14 It is essential to keep the noise level as low as possible. An effective exhaust silencing system of the residential type must be provided.

- 3.15 The exhaust pipe shall be installed in such a way that the exhaust fumes will not cause discomfort to the public and/or users of the building. The exhaust pipe must be flexibly connected to the engine to take up vibrations transmitted from the engine, which may cause breakage. The exhaust piping and silencer shall be lagged to reduce the heat and noise transmission into the container and shall be protected against the ingress of driving rain at 45° to the horizontal. For horizontal exhaust pipe discharge, the outlet must be at least 2.5m above the plinth level and point away from the building. Vertical discharge outlet may be not less than 150mm from enclosure top external surface. The exhaust must be secured by flanges both sides of the container structure at the point of exit. These flanges must be clamped to the structure with bolts. Expansion bellows shall be incorporated in the exhaust system.

- 3.16 The engine and generator shall be mounted on anti-vibration mountings to prevent any vibration transmission to the structure. The engine/generator combination shall be such that no critical speeds exist from zero RPM to Maximum RPM plus 50%.

- 3.17 The engine must be supplied complete with all accessories, air and oil filters, 3 instruction manuals, spare parts lists, the first fill of all lubricating oils, anti freeze and corrosion inhibitors etc.

- 3.18 Independent mechanical type oil pressure, engine temperature, battery voltage and charging current meters shall be mounted inside the enclosure. These gauges shall be independent from the electronic condition monitoring system required. The gauges shall be of a high quality, mounted on anti-vibration mounting plate and be easily legible.

B.4 ENCLOSURE

The diesel generating set and associated equipment including the control panel and change over switch shall be mounted inside a specially manufactured skid based enclosure.

The complete base and structural frame shall be hot dipped galvanised after manufacture. All galvanised components shall be cleaned with a phosphate based specialised cleaner before painting with a two part polyurethane epoxy primer and two coats of two part polyurethane epoxy top coat. The paint system shall be fuel and oil proof. The Fuel tank shall be bolted into the frame after the frame and structure is galvanised and painted. A similar painting system shall be used for items manufactured from 3CR12.

A bund tank shall be bolted into the base with a volume capacity of 110% of the generator fuel tank. The bund tank shall be fitted with a drain valve and hose connection to facilitate emptying in the event of a spillage. The engine sump shall also be fitted with a drain valve and plug to facilitate oil changes.

All drain points etc. shall be easily reachable for service and cleaning purposes.

The electrical and control panels shall be mounted inside the enclosure and shall be mounted on anti-vibration mountings. Additional enclosure doors shall protect the electrical and control panels from dust and rain.

The enclosure external panels shall be from double skin galvanised sheet metal with min. 1.6 mm thickness. The internal skin shall be from perforated plate with an opening ratio of at least 60%. The space between the internal and external skins shall be filled with fire, fuel, oil and water resistant high density glass fibre acoustic absorption material that is covered with solid woven glass fibre cloth. The bottom lips of enclosure panels shall be with min. 12mm diameter drain holes to prevent accumulation of liquid.

The base frame of the enclosure shall be fitted with spacers forming the load bearing points on the concrete base. The spacers shall ensure that no part of the frame is less than 16mm from the concrete surface. The spacer sizes shall incorporate bolt down lugs with 22Ø holes. The plates sizes shall be such that adequate load bearing surface is available to limit the load onto the concrete. No part of the frame shall be below the top surface of the plates described above.

All welding on the frame/structure and any component shall be done according to approved and qualified procedures according to AWS D1/1. All joints, plates etc. attached to the structure shall be seal welded. All welding shall be done before galvanising.

All enclosure doors shall be lockable, with heavy duty hinges and locking mechanisms equal to the type used on shipping container doors. Each door shall be lockable and shall be fitted with keyed alike stainless steel 40mm padlocks with min. 8mm dia. Locking hoops. The enclosure shall be fitted with either a single lifting eye or four corner mounted lifting eyes from which the complete system with generator, engine, control panels fuel and appurtenances can be lifted by a crane truck. The single lifting eye shall be positioned such that the complete system centre of gravity is below the lifting eye. A capability certificate for the complete structure shall be provided. The corner mounted lifting eyes shall be adequately braced to allow for the horizontal forces caused by a sling angle of 30 degrees. Sling limitations must be clearly marked on the container at each lifting eye.

All air inlets and outlets shall be attenuated to the extent that the free field noise level does not exceed 60 dBA when measured 3m from any surface of the enclosure. All ferrous materials shall be galvanised and painted as specified above.

All bolts and nuts used on the entire system shall be as a MINIMUM grade 8.8 and zinc plated. Any welding done after galvanising, shall be repaired with 99% zinc based organic paint.

B.5 ELECTRICAL WORK

- 5.1 All electrical work must conform to SANS 10142 and a certificate of conformance (COC) must be issued for the equipment. All cables must be secured to corrosion proof cable baskets. Wiring shall be done inside galvanised conduit and special care must be taken to seal all conduits and cables etc. Cables and wiring shall be high temperature and oil resistant in the vicinity of the engine and fuel system.
- 5.2 Control Panel which can be operated from cellphone/s.
- 5.3 All controllers, circuit breakers, relays etc. shall be mounted inside a standard control panel. The panel shall be powder coated in red and shall be complete with lockable isolator, 22 mm LED running indicator lamps, full circuit diagram mounted inside the panel, wire ways with covers, all components clearly marked, all wires terminated with ferule ends and numbered according to the circuit diagram. Marking labels shall be three layered and engraved with white background and black lettering and shall be screwed to the panel face. Cable and wire markers shall be colour coded and of standard manufacture. The panel shall be water and dust proof and shall be within the generator enclosure. Gland plates shall be used to secure all cables.
- 5.4 Circuit breakers shall be double pole for single phase units and triple pole for three phase units with the correct tripping curves for the application and appropriate discrimination and fault current rating.
- 5.5 The change-over switch shall be 3 pole with the neutrals permanently bonded. The change over switch shall be of the automatic motorised type and shall be capable of switching under full load conditions and shall be rated at least 20% more than the base load of 100 kVA. The change over switch shall be of the motorised automatic type similar or equal to SOCOMEC 250A ATyS (ATSE) system with auxiliary contacts, padlock able handle and interlocking system, protective shrouds and voltage sensing and power supply kit.
- 5.6 Motor protection units with adjustable magnetic and thermal overloads and lockable ON/OFF switches shall be used in place of the standard thermal overload connected to the contactors.
- 5.7 Full circuit diagrams shall be submitted as part of the manuals.
- 5.8 All cabling shall be done in colour coded multi stranded cables. Crimp on cable ends shall be used. Cables and cable sizes shall conform to the requirements of SANS 10142. Current used in determining the cable

sizes shall be at least 20% more than the expected current flow. Cables shall be sized up if calculated value does not fall on a standard cable size. All gland plates, main switching and protection devices shall be capable of accepting the terminations of a 95mm² armoured cable. Cable positions shall be such that oil and/or fuel cannot come into contact with the cables. Where this is not possible, oil resistant cables shall be used.

- 5.9 The entire generator system and enclosure shall be earth bonded with earth cable of min size 35mm sq. A dedicated earth lug shall be provided onto which the external earths can be connected. The earth lug shall be capable of accepting at least two 50mm sq earth cables in addition to that required internally.
- 5.10 Load testing preferably in the presence of Department of Public Works & Infrastructure Engineer to be performed by an accredited person.

B.6 DRAWINGS AND DOCUMENTS

- 6.1 Full workshop drawings of enclosure, doors, controls, engine, generator, services including fuel and cooling systems, cable layouts, alarm system and inter wiring shall be included in the maintenance and installation manuals.
- 6.2 Three copies of full maintenance and operating manuals in file with plastic sleeves format and electronic pdf format shall be provided at delivery.

The minimum contents of the manuals shall be:

- i) Schematic diagrams, control diagrams and circuits, manufacturer's data sheets, test data, fuel tank test certificate, copy of equipment COC, lifting safety certificate and as build drawings.
- ii) Basic start up, shut down and running procedures.
- iii) Fault check list in flow diagram format
- iv) Controller programming procedure and software.
- v) Routine maintenance plan, full service descriptions and checks to be performed complete with van belt sizes and fuel, oil and air filter details and model numbers/sizes.
- vi) Fill volumes of oil, coolant fuel etc.
- vii) Operating points e.g. oil pressure, temperature, engine speed
- viii) List of critical spares and recommended spares to be kept on site complete with names and contact details of suppliers.
- ix) Material Safety Data sheets.
- x) Emergency containment procedure in the event of an oil and/or fuel spill.
- xi) Manufacturers data sheets and equipment brochures including engine and generator parts drawings and lists.
- xii) Engine and generator load test certificates
- xiii) Any other information regarded as pertinent to the installation and operation of the system.

6.7 EMPLOYERS OBJECTIVES

To provide the site for the installation, testing, commissioning of the delivered 100KVA Diesel Generator **Bisho**

6.8 OVERVIEW OF THE WORKS

Supply, Installation, Testing and Commissioning of 100kVA Standby Generator for Old Disaster Building in Bisho 1500 LITER STAINLESS STEEL TANK Oval Heavy Duty U Channel Chassis 2200 Kg Leaf Spring Suspension With 14" Wheels White Mags Single Axle 55mm Round 5 PCD Square Braked Axle Global Coupler Handbrake And Dampener Jockey Wheel 55 Round Single Wheel Flicker , Brake ,Park Lamp And Lic Light X 2 Yellow Tape All Round With Reflectors

6.9 LOCATION OF THE WORKS

OLD DISASTER BUILDING: NEXT TO TRU FM/SABC BUILDING IN BISHO

PART B.7 SITE INFORMATION

**OLD DISASTER BUILDING:
NEXT TO TRU FM/SABC
BUILDING IN BISHO**

B7.1 SITE INFORMATION

| | |
|------------------------|---|
| Project title: | Supply, Installation, Testing and Commissioning of 100kVA Standby Generator for Old Disaster Building in Bisho |
| Project Number: | HO5 – 22/23 - 0076 |

GENERAL

The equipment offered is intended for use at the Department of Old Disaster Building in Bisho in the Eastern Cape.

Access into and out of the site shall be subject to security control. All access arrangements must be cleared by the DPW management.

B.8 CONTRACT PERIOD

This contract is for the supply, delivery and commissioning only. Delivery of both the 100 KVA Diesel Generator and 1500 LITER STAINLESS STEEL TANK Oval must be done within 6 weeks after receipt of works order.

MINIMUM REQUIREMENTS FOR CONTRACTOR:-

- | | |
|----|---|
| 01 | TRADE TEST |
| 02 | PHASE WIREMAN'S LICENCE : ATTACH A LETTER FROM DEPARTMENT OF LABOUR |
| 03 | PROOF OF REGISTRATION WITH THE CONSTRUCTION INDUSTRY DEVELOPMENT BOARD (CIDB) . |
| 04 | PROOF OF REGISTRATION WITH THE COMPENSATION COMMISSIONER. (IOD) |
| 05 | PROOF OF REGISTRATION ON PROVINCIAL TREASURY DATABASE |

ALL ABOVE DOCUMENTATION TO BE ATTACHED TO TENDER DOCUMENT.

NOTE: ALL USED MATERIALS WILL REMAIN THE PROPERTY

OF THE DEPARTMENT OF PUBLIC WORKS & INFRASTRUCTURE UNLESS SPECIFIED OTHERWISE
